TERRACE WITH SPA & SUMMER KITCHEN | SAUNA

ENCLOSED AREA:	5,148 sq ft / 478.26 m ²
TERRACE AREA:	1,801 sq ft / 167.31 m ²
TOTAL AREA:	6,949 sq ft / 645.57 m ²

PAINT TO PAINT: RESIDENCE: 4,535 sq ft / 421.00 m²

NOT TO SCALE

*ADDITIONAL BEDROOM & BATH CARRY AN ADDITIONAL CHARGE

Plans depicted on this Floor Plan are conceptual only and are for your visual reference. They should not be relied upon as representations, express or implied, of the final details of the Unit. The Developer reserves the right to make modifications, revisions and changes it deems desirable in its sole and absolute discretion. All depictions of appliances, counters, soffits, floor coverings and other matters of detail are conceptual only and are not necessarily included in each Unit or, if included, are not necessarily intended to be of the size, shape or location indicated. Consult your Purchase Agreement and the Prospectus for the terms and conditions of the Unit. Dimensions and square footages are approximate and are subject to change in accordance with your Purchase Agreement, and may vary with actual construction. Given the nature of condominium ownership, the Unit boundaries are precisely defined in such a manner so that all components of the Building which are far are point-to-point defined either by other Units or the Common Elements are excluded from the Unit. This would include, for instance, all structural walls, columns, etc., and eventually limits the Unit boundaries to the interior angles between the perimeter walls and excludes all interior structural components for the purpose of Unit boundaries, see Section 5.2 of the Declaration. For your reference, the area of the Unit, determined in accordance with these defined Unit boundaries, is set forth herein (and labeled as "Unit Area"). Please note that the unique way of defining the boundaries actually makes the Unit appear to be smaller than it actually would be if standard architectural measuring techniques were used. Typically, apartment units are measured to the exterior boundaries of the exterior walls and to the centerline of the interior dividing walls, without excluding areas that may be occupied by columns or other structural components. The "Typical Area" is calculated based upon standard architectural measuring techniques. It is also set forth herein (and labeled as "Typical Area"). The Typical Area is provided solely to establish a frame of reference and is not intended to suggest that the actual Unit is that size. In fact, as set forth above, many of the components included in determining the Typical Area are Common Elements that are not exclusively owned.
