This project is being developed by 177 Bay Harbor Islands, LLC, a Delaware limited liability company ("Developer"), which has a limited right to use the trademarked names and logos of Terra and THE WELL. Any and all statements, submissions and/or representations, oral or otherwise made by Developer and not by Terra or THE WELL, and any and all of their affiliates with respect to any and all matters relating to the marketing and/or development of the project, the Terra and THE WELL groups of companies are each considered as separate companies that are legally distinct. Reference to Terra and THE WELL is merely for convenience and should not be relied upon for any other purpose. Developer is not and cannot be relied upon to be any party stating the representations of the developer. For correct representations, once reference to this brochure and to the documents required by section 718.503, Florida Statutes, to be furnished by a developer to a buyer or lessee. These materials are not intended to be an offer to sell or solicitation to buy a unit in the condominium. Such an offering shall only be made pursuant to the prospectus (offering circular) for the condominium and/or materials should be read upon or made to the prospectus or to the applicable purchase agreement. In no event shall any solicitation, offer or sale of a unit in the condominium be made in, or to residents of, any state or country in which such activity would be unlawful. Stated square footages and dimensions are measured to the exterior boundaries of the structure walls and to the centerline of interior demising walls and in each case from the square footage and dimensions that would be determined by using the descriptions and definitions of the "unit" set forth in the Declaration (which generally only includes the interior airspace between the perimeter walls and excludes all exterior structural components and other common elements). This method is generally used in sales materials and is provided to allow a prospective buyer to compare the Units with Units in other condominiums which use that, or some other, method. Measurements of rooms set forth on this floor plan are generally taken at the farthest points of each room (not at the closet, even if the closet is considered a part of the room). Accordingly, the area of the actual room will typically be smaller than the area computed by multiplying the stated length and width. All dimensions are approximate and are subject to construction, as-built field changes, and minor variations. Actual dimensions may not necessarily accurately reflect the floor plans and specifications for the development. The project graphics, renderings and text provided herein are copyrighted works owned by the Developer. All rights reserved. Unauthorized reproduction, display or other dissemination of such materials is strictly prohibited and constitutes a copyright infringement. No real estate broker is authorized to make any representations or other statements regarding the projects, and no agreements made with any real estate broker and/or shall be binding on the Developer. Equal Housing Opportunity.
