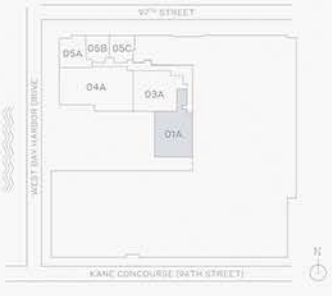
Exterior	850 SQ. FT. | 79 M²
Total	3,142 SQ. FT. | 292 M²



This project is being developed by 1177 Bay Harbor Islands, LLC, a Delaware limited liability company ("Developer"), which has a limited right to use the trademarks, names and logos of Terra and THE WELL. Any and all statements, conclusions and/or representations, oral or otherwise made by Developer, but not by Terra or THE WELL, and you agree to look solely to Developer (and not to Terra, THE WELL, or any of their affiliates) with respect to any and all matters relating to the marketing and/or development of the project. The Terra and THE WELL groups of companies are each composed of several separate corporate and real estate entities. Reference to Terra and THE WELL is merely for convenience and should not be relied upon for any other purpose. Each representative cannot be relied upon by anyone as stating the representations of the developer. For correct representations, make reference to this brochure and to the documents required by section 718.503, Florida Statutes, to be furnished by a developer to a buyer or lessee. These materials are not intended to be an offer to sell or solicitation to buy a unit in the condominium. Such an offering shall only be made pursuant to the prospectus (offering circular) for the condominium and no statements should be made or relied upon unless made in the prospectus or in the applicable purchase agreement. In no event shall any solicitation, offer or sale of a unit in the condominium be made in, or to residents of, any state or country in which such activity would be unlawful. Square footages and dimensions are measured to the exterior boundaries of the exterior walls and the centerline of interior demising walls and in each case from the square footage and dimension that would be determined by using the descriptions and definitions of the "unit" set forth in the Declaration (which generally does not take the interior airspace between the two shafts walls, and excludes all exterior structural components and other common elements). This method is generally used in sales materials and is provided to allow a prospective buyer to compare the Units with Units in other condominiums which may not show the same method. Measurements of rooms set forth on this floor plan are generally taken at the furthest points of each given room (as if the room were a perfect rectangle), without regard for any indents or variations. Accordingly, the area of the actual room will typically be smaller than the square footage set forth herein. Furniture and other items depicted in the floor plan are not included in the purchase price unless specifically set forth in the applicable purchase agreement. Any and all dimensions are estimated and are subject to actual construction, as-built conditions and final space planning. Actual dimensions may vary from those shown. Windows, doors and floor penetrations may be located differently than shown. Certain Units may have columns, bulkheads, soffits, ceiling features and other structural elements that are not shown on the floor plans. Purchaser should not rely on the floor plans as representations of the final Unit as built. Please refer to your purchase agreement for a complete description of your Unit. Certain Units may have exposed mechanical, electrical and plumbing lines, which may be covered by the Developer in its discretion
